

Hello,

I am writing to encourage the FCC not make changes in the current LPFM practice. I am a listener of Air1 Radio and would like to be able to continue listening to this station. I am from Palm Springs, CA and am attending graduate school in Cincinnati, OH. I enjoyed hearing Air1 in Palm Springs. Cincinnati does not have Air1 and although there is a local Christian station, it does not cater to younger audiences. Air 1 provides a positive service to listeners by playing songs with uplifting and non-offensive lyrics. Because of these two features, Air 1 provides a unique service to local communities. I would encourage the FCC not to replace this station with other broadcasts.

Thank you for your time and consideration,
Brooke Hollinger
